January 18, 2021

Board of Selectmen, Town of Sunapee
c/o Donna Nashawaty, Town Manager
23 Edgemont Rd
Sunapee, NH 03782

To the Sunapee Board of Selectman and Town Manager:

By way of introduction, the Otter Pond Protective Association (OPPA) exists for the purposes of the improvement of Otter Pond and its watershed, promotion of proper shoreline practices, avoidance of the introduction of invasive species of vegetation and predatory fish, and improvement of the quality of Otter Pond. Of interest is that Otter Pond provides more than half of Lake Sunapee's top layer of water.

Over the past year, there has been an increase in Otter Pond shoreland landscape activity that we did not become aware of until after the fact. Some of this appears to have resulted in clearing vegetation down to the soil, which increases the risk for stormwater runoff directly into the pond. Through recent Board of Selectmen meeting minutes, we learned that the York Family is requesting permission to install a seasonal dock on their property along Route 11. We welcome and wish them much enjoyment of the pond and environs. We request, beyond various NH DES and Town permitting approval, any dock installation includes complete adherence concerning allowable shoreline buffer vegetation management and enforcement of same occur, as it should for any (potential) shoreland modification.

We appreciate everyone's contribution to the preservation of Otter Pond, so it may remain a valuable resource to us all.

Regards,

Stuart T. Greer
William B. Stockwell
Co-Presidents, Otter Pond Protective Association
