

SUNAPEE FIRE DEPARTMENT EMERGENCY CONTACT LIST

The Sunapee Fire Department keeps a list of residents who may need assistance during severe weather or emergency situations, such as those who live alone, are elderly or disabled, and do not have transportation. The department checks on them to ensure their safety in such events.

Following a major storm, a telephone call is made to check on the well-being of people on the list. If the person can't be reached by phone, a fire department member will go to the home in a department marked vehicle to check on the person. The fire department members will have department identification with them.
